Download mod apk file Traffic Rider MOD APK (Unlimited Money) is the best modified version of Sonar War's top motorcycle racing game. Table of contents [Show/Hide]In addition to high-end car racing games like Asphalt 8 or Need For Speed, the motorcycle racing game is quite attractive and has a large number of players as well. There are many racing games, but partly because of poor graphics quality, another part because of too much advertising that prevents players from choosing so hard. But not at all, and the name of one of them is the famous motor racing game Sonar Kara with hundreds of millions of installs called Traffic Rider.Does Traffic Rider have no ads? The answer is yes, but the way that Sonar Kara placed ads in this game is very minded when the ads occupy only a small part of the main screen and at the end of the game, besides their ads themselves turn off. Not in full screen mode, do not catch the user click ignored as other free games. Transformed riderSo you are a speed enthusiast, you can try Traffic Rider to experience expensive supercars or try your reflexes in front of highways, only one distraction can cause you to lie down. Endless arcades, challenging levels and supercar patterns that you dream of in real life can't be seen waiting for you to participate. You will be involved in long tripsSeed, the player will receive a motorcycle with only a maximum speed of 100 Km / h to practice driving. On the highway, you will have to control the car at the highest speed possible, avoid other vehicles and reach the target set with the game. When finished, you will receive a bonus that can be used to buy expensive motorcycles. These motorcycles are usually very expensive and you will accumulate a lot of bonuses. To reach the big bonus, you need to reach a minimum speed of 100km/h and try to avoid road vehicles as close as possible. In this game, landmarks that you will cross will appear on the map. Each level has the necessary landmarks before you can unlock another. Milestones with the G symbol are complete without showing what you're doing, but the lock icon isn't visible. DrivingPassing through the harsh streets will be a memorable experience for young peopleAbout the racing game, the fun part is definitely driving. Controls aren't too complex, there are two virtual scales on the side of the screen. To slow down, you can use the brakes and release the throttle, reversing when you need to accelerate. However, there are many hazards travel that you have to be careful, but not slow. One is not wonderful, two have not achieved the requirements of the game. Particular attention should be paid to the weather and the time when it rains, and at night will affect adhesion and vision. As follows: Drive right: Touch to increase throttle drive: Brakes, deceleration. Car beep icon: Remote warning for other vehicles to give way. GraphicsIn terms of graphics, Traffic Rider is really good. The game is built on a state-of-the-art game engine, providing the ultimate gaming experience. You can notice the game carefully from the formation of the car, background, highway, even the weather and the collision game was unexpected. Most importantly, over 20 supercar models like ARTIL TP4, YNH S1 and DCT 89 10H... there are designs based on real life, such as 99%. Feel the truth in every moveOr besides the sound system is surprisingly large, you can hear the sound of the engine no different from the engine in real life. According to the developer, these sounds are because they record the motor sounds and then incorporate them into the game, making the game more realistic and dynamic. Motorcycle System Do you want to own these? There are more than 20 different vehicles designed based on real life. Motorcycle manufacturers such as Kawasaki, Indian, Harley-Davidson, BMW, Suzuki and Yamaha all have products for the game.
